A child's ability to engage in learning and be fully included in school and family life can be fundamentally affected by their experiences of early relationships or attachments.

This half-day workshop will:

- Explain some of the factors that can prevent a secure attachment from forming between a child and their primary care giver
- Outline some of the challenges that these children experience on a daily basis and the impact that this has on their ability to form meaningful relationships with both adults and their peers
- Consider some of the behaviours that these children exhibit and how they can be supported to overcome negative childhood experiences
- Provide an opportunity for parents, carers, families and professionals to reflect on how an ethos of emotional wellbeing may strengthen inclusion, reduce disaffection and promote resilience
- Discuss practical advice and ideas that can be implemented

This workshop is suitable for parents and carers supporting vulnerable children and young people.

This workshop is £5 per participant
Refreshments are provided
