Topic Term 2

Celebration & Festivals

ENGLISH

This term we will be learning about myths and legends as well as historical text both fiction and non-fiction. We will be listening to the stories of Guy Fawkes, Rama and Sita and Babbuska. The children will be focussing on finding information from the text we have read as well as researching our topic.

Suggested Learning Support Activities

- Looking at pictures of different Celebrations and Festivals and talking about them.
- www.topmarks.co.uk English games
- Activities will be available on Seesaw

MATHS

This term we will continue to focus on Number with the introduction of Money. We will identify the numbers on the coins and notes, understand the different values of coins and make different amounts of money using various coins.

Suggested Learning Support Activities

- Look and name coins and notes at home
- Group coins
- www.topmarks.co.uk has some great money games.

SCIENCE

During our Science lessons we will be exploring light sources. We will investigate what happens when light is removed, what objects light can travel through and what happens when light is blocked by an object. We will also be exploring shadows.

Suggested Learning Support Activities

- Look out for shadows when you're out and about
- Using a torch make shadow puppets

CREATIVE ARTS

This term in Art we will be producing artwork that interprets Celebration and festivals such as creating firework pictures and rangoli patterns. We will also be using materials to create Diya candles and Babbuska dolls. Not forgetting our Christmas crafts ready for the festivities.
