Dear Parents/Carers and Staff

Re: Metal Water Bottles Reminder

Please may I remind everyone of our school policy that metal water bottles are not to be used in school.

We carried out a health and safety review following an incident with a metal water bottle and it was agreed that pupils and staff in classrooms, with immediate effect, would no longer be able to use metal water bottles. We have noticed that these have begun to creep back into school.

We appreciate, that pupils and staff should be keeping hydrated by drinking water and we therefore request that you send in any drinks, wherever possible in a reusable plastic bottle rather than single use bottles but we understand that this is not always achievable.

Thank you for your co-operation and support.

Kind regards.

Yours faithfully

Angela Howe
Principal
