

Subject-Led Home Learning Projects

Our subject-led home learning projects have been designed to help our students extend their learning beyond the classroom, to practise transferring knowledge and skills learnt in school to other areas of their lives.

The activities in each project are all optional, and provide parents and carers with a list of tasks that can be selected to suit their child's interests and home routines. Above all they should be engaging and fun, not a chore!

How to complete the project:

- *Ask your child to choose one activity at a time that interests them to complete. Depending on the task, there may be a level of support/supervision required from an adult.*
- *Your child may choose to complete each task in a number of ways: producing something **on paper**, as **3D models**, through **photographs** or **videos**, or through an **adult's written account** of actions he/she took.*
- *Anything produced for the project should be kept together (perhaps in a folder) until the end of term.*
- *The projects should then be handed in to your child's form tutor before the deadline set.*
- ***Prizes** will be given out for the most impressive home learning projects each term.*

Home Learning Project

Term 1/2

owls

Florence Nightingale had a pet owl, can you draw ,paint or collage an owl picture.

Tortoise

Florence Nightingale had a pet owl, can you draw ,paint or collage an owl picture.

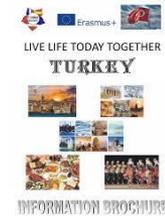

Letters

Write a letter to Florence Nightingale, asking her about her time in the hospital.

Turkey

Florence Nightingale worked at the hospital in Scuttari, this is in Turkey, make a travel brochure for Turkey.

.Toys

Find 10 toys and share them out with your family, write the division number sentence to go with this.

Counting

Walk up some stairs counting in 2's, 5's or 10@s. Then walk back down the stairs counting back in 2's, 5's or 10's. Draw a picture of you doing this.

Numbers

Practise writing your numbers, you could create a poster of your favourite number.

Topmarks

Log onto the topmarks site <https://www.topmarks.co.uk/maths-games/mental-maths-train> and play the adding and subtracting games, take a photo of you playing these.

Project Deadline: Friday 11th December 2020 Hand your finished project in to your form tutor, or email them directly to the Assistant Principal for Subject-Led Learning, Liz Brobyn-Ross: liz.brobyn-ross@meadowfield.kent.sch.uk
