We Are All Special Here

What is Nurture Group Provision?

Our nurture group is a short-term, focused intervention for pupils and students with particular social, emotional and behavioural difficulties which are related to a trauma suffered at some stage of their lives, creating a barrier to learning within their main class.

A key aspect of a nurturing approach is an understanding of attachment theory and how early experiences can have a significant impact on development.

What is Wildflowers class?

The Wildflowers nurture group is a constructive, child centred, well-being provision. The primary focus of which being to build positive and trusting relationships.

This is achieved by a philosophy of “unconditional positive regard,” in which all behaviour is viewed as a vital means of communication and not a negative reflection on the child’s personality.

This allows the pupil to come to the realisation that adults can be trusted and relied upon, as the staff working within the group take on a consistent, upbeat, almost parental-like role, acting as role models, guides and mentors.

Wildflowers class principles

- ◇ No more than 5 pupils with 2 consistent staff
- ◇ Part time attendance over 2-4 terms
- ◇ Referrals are made by the class teacher
- ◇ Well being is rigorously monitored
- ◇ Boxall profiles allow for precise target setting in exact areas of development required for each individual
- ◇ Every pupil is different and may require additional time in the class at any stage of their school life
